

## [Open Source Cluster Breakout](#) [1]

Submitted by ChrisMattmann on Fri, 2013-04-26 09:28 Thursday, July 11, 2013 - 10:30 to 12:00

**Event:** [Summer Meeting 2013](#) [2]

**Session Type:** [Breakout](#) [3]

**Collaboration Area:** [Data Management Training](#) [4]

[Earth Science Collaboratory](#) [5]

[Geospatial](#) [6]

[Products and Services](#) [7]

**Abstract/Agenda:**

The ESIP Open Source Cluster breakout will consist of:

- A short introductory session to the goals and accomplishments of the Open Source Cluster (Licensing advice; governance and foundation models; community models; and best practices for open source) - Chris Mattmann will give this
- Short "lightning talks" from presenters culled from calls on the [esip-opensource@lists.esipfed.org](mailto:esip-opensource@lists.esipfed.org) [8] and to other open source communities. We will solicit open source talks from popular foundations including Apache, Eclipse, and also from within the science and technical communities.
- A discussion of next steps for the Cluster in terms of relationships to other ESIP groups (Products + Services; Geospatia; Cloud Computing, etc.)

We anticipate a lively discussion, opportunity for training in open source, and important outcomes including new case studies that the group will take on as posed by the audience, and from the discussion.
