

Cloud Computing Workshop

Spatiotemporal Hybrid Cloud Platform

Community

Cloud Computing @ESIP

- Educate the community
- Share experiences
- Provide professional recommendations and guidance
- Foster collaborative research on architecture, reference model, and relevant new technologies

Application

- Seismic
- Semantics
- Oceanography
- Climate
- Floods
- Social Media

- Data Container
- Cloud Computing
- Cluster Technology
- Big Data Analytic

Research

System

- NEXUS: Deep Data Platform
- AIST Managed Cloud Environment
- Spatiotemporal Hybrid Cloud Service
- Extreme Science and Engineering Discovery Environment (XSEDE)/ JetStream
